

Adams County Neighborhood Traffic Calming Program (NTCP) Application

Thank you for your interest in participating in the Adams County NTCP. Educational materials regarding traffic in neighborhoods are available immediately and do not require the completion of this application. Contact us at 720.523.6875 or via email at PWTraffic@adcogov.org for yard signs and more.

If concerns persist, you may request support for options that involve engineering elements (either visual or physical) to support traffic calming. The program works in a sequential and escalating manner, so Tier 1 elements must be explored before a neighborhood is eligible to apply for Tier 2 mitigation.

Tier 1 Engineering — Visual Elements include items such as signing, striping, or temporary driver speed feedback signs. To begin the process, please fill out and submit this application form. Staff will complete a review and identify appropriate next steps.

If Tier 1 Visual Elements are not considered successful and several residents remain concerned, the neighborhood may apply for **Tier 2 Engineering – Physical Elements**. These include construction-based changes such as curb extensions or speed tables. To begin this process, fill out this application (including the section requiring additional sponsors) and submit it to Adams County Public Works. Staff will review eligibility, complete data collection and evaluation, and, if appropriate, complete a mitigation plan. The neighborhood will then be asked to complete a petition process to ensure a majority of the neighborhood supports the plan before project prioritization and construction scheduling can occur.

Detailed program information, including process, timelines, toolbox, and FAQs can be found at adcogov.org/traffic-safety. The application can be submitted via email to PWTraffic@adcogov.org.

NTCP Application

Date: _____

- Tier 1 application
- Tier 2 application (only available after Tier 1)

Applicant Name: _____

Email: _____

Phone Number: _____

Mailing Address: _____

City, State: _____

Zip Code: _____

Additional Sponsors – Tier 2 Requests Only

Minimum of three (3) additional sponsors Required for Tier 2 applications.

1 - Name: _____

Address: _____

2 - Name: _____

Address: _____

3 - Name: _____

Address: _____

Location of Interest

Please describe the location of the concern. This may include your neighborhood name, street names, cross street names (such as Street X from Street Y to Street Z), and intersections.

Note: The program is intended for residential or local streets within a neighborhood. Collector streets located within a neighborhood are also eligible for traffic calming considerations. Note that mainline or arterial roadways, are not eligible for Tier 2 Physical Elements. Visit adcogov.org/traffic-safety for details on street classifications.

Explanation of Concern

Please describe the nature of the concern. This may include speeding, cut-through traffic, difficulty crossing the street, drivers not yielding to pedestrians, drivers not obeying traffic control devices, etc. If relevant, please share what time of day or days of the week the concerns exist.

What Efforts Have Already Been Made to Support Traffic Calming?

If you are applying for Tier 1 mitigation, please describe your efforts, to date, with education and outreach.

If you are applying for Tier 2 mitigation (physical elements such as speed tables), please describe the Tier 1 elements that have already been employed (temporary driver feedback trailers, signing etc.).
