RE: RTD Participation in Sub-regional TIP Local Match

Dear Ms. Stuart:

This letter is to express RTD's intent to participate in a share of the local match for Smart Commute Metro North's 2020-2023 TIP Sub-regional application for the North I-25 FlexRide project. Specifically, RTD will provide \$75,000-\$150,000 in funding support for the project's local match should the project receive TIP funding. RTD's funding would be programmed as follows:

	Base	Additional contribution if EcoPass sales metrics are met	
2020:	\$25,000	\$25,000	
2021:	\$25,000	\$25,000	
2022:	\$25,000	\$25,000	
Total:	\$75,000	\$75,000	= up to \$150,000 total

Disbursement of these funds would be contingent upon completion of the project scope per the terms of a to-be-drafted IGA.

RTD is excited to participate in this project and we look forward to working with Smart Commute Metro North to see it through to implementation. Please let me know if I can provide any additional information.

Sincerely,

Bill Sirois
Senior Manager, Transit Oriented Communities
